

About Our Sponsors

MAPLE SYRUP PRODUCERS ASSOCIATION OF CT is a non-profit educational membership organization of large and small maple producers. www.ctmaple.org

CONNECTICUT FOREST & PARK ASSOCIATION is one of the nation's oldest conservation organizations,

conserving Connecticut by connecting people to the land. CFPA directs programs at the Goodwin Center in partnership with the CT DEP.

www.ctwoodlands.org

CONNECTICUT DEPARTMENT OF ENVIRONMENTAL PROTECTION works to conserve, protect and improve the natural resources and environment of Connecticut.

The DEP owns and jointly operates the Goodwin Center with CFPA. www.ct.gov/dep/Goodwin.

COURSE INSTRUCTORS: Steve Broderick, Forster and Program Director at the Goodwin Center, will be the primary instructor. Broderick is a life member of the Maple Syrup Producers Association of CT and has made syrup himself for nearly 30 years. He will be joined by several veteran maple syrup producing members of the MSPAC.

Producing Quality Maple Syrup: a short course

Want to try your hand at making maple syrup? Then join us for a 3-part course on becoming a maple sugarmaker at the Goodwin Forest Conservation Education Center. This soup-to-nuts course will include a written manual and cover such topics as the health and management of maple trees, tapping, collecting & storing sap, and making and packaging syrup, with an emphasis on quality control throughout the process. Whether you want to make a few gallons or run a commercial operation, this course will provide the fundamentals essential to making a good, consistent and delicious product.

COURSE OUTLINE

WEDNESDAY, NOVEMBER 28, 7:00–9:15 P.M.
(SNOW DATE NOVEMBER 29)

- Introduction, history of maple production
- Planning your operation: time & cost considerations, purchasing equipment
- Tree health and management: species to tap, tree health issues, managing forest trees vs. roadside trees
- Why, when and how sap flows
- The tapping process

WEDNESDAY, DECEMBER 5, 7:00-9:15 P.M.
(SNOW DATE DECEMBER 6)

- Collection & storage of sap
 - Types of collection systems
 - Tubing materials, layout, maintenance & cleaning
 - Filtering and handling to maintain quality
- Syrup production
 - Evaporator function, design, operation
 - Finishing standard density syrup
 - Filtering, grading, packaging
 - Marketing your products

SATURDAY, DECEMBER 8, 9:00-11:30 A.M.
(SNOW DATE DECEMBER 15)

Field session: visit to a managed sugarbush and sugar-house, review all of the above.

DIRECTIONS: From the Hartford area: take I-84 east to I-384 east to Route 6 east. The Goodwin Center is located off of Route 6 at 23 Potter Road in Hampton, CT, on the southern edge of the Goodwin State Forest. From the intersection of Routes 6 and 198 in Chaplin, go east 3.1 miles further on Route 6 and take a left onto Potter Road. **From the east:** from the intersection of Routes 6 and 97 in Hampton, go west 1.4 miles and take a right onto Potter Road.
